

# Course Delivery Options

Spring 2022

Each course has a **TWO LETTER CODE** in the comments section designating the delivery modality for that course.

## FACE-TO-FACE

Courses meet on campus with required physical attendance. Some courses may be blended (a “B” will be seen in the course section code) which means that some days may meet remotely. Students must be vaccinated and follow all SUNY Ulster COVID protocols when on campus.

## ONLINE

Courses are conducted online without live lectures (asynchronous) on Blackboard. Courses typically have weekly deadlines (refer to the course outline). Students are not expected to come to campus.

## REMOTE

Courses meet online with attendance required on specific times/days for live lectures on Zoom or Google Meet (synchronous). Students are not expected to come to campus. Courses may be blended (a “B” will be seen in the course section code) which means that classes may meet with a non-live component (asynchronous).

## HYFLEX

Courses meet on specific times and days but students have the option of attending in-person on campus or remotely via Zoom or Google Meet. Students must be vaccinated and follow all SUNY Ulster COVID protocols when on campus.

For additional details about specific courses, please contact the designated instructor or the academic department offering the course.
